

Expand collaboration while working remotely, keeping your team engaged, connected, and secure

Transform workplace collaboration

Streamline connections across devices

Stay protected with cost-effective security

- Unify workplace collaboration into one digital hub where teams can meet, call, and chat
- Elevate remote productivity by streamlining business processes
- Empower your team by hosting 1:1 meetings, intimate group events, or larger virtual conferences
- Decrease expenses and keep your workforce safe by minimizing business travel in uncertain times

- Ensure a seamless, consistent experience with superior audio and video quality
- Connect with personal and shared room devices certified for Teams, including Microsoft Teams Rooms, Collaboration Bars, and Surface Hub2Shelp
- Integrate phone system/calling capabilities

- Reduce costs and risks by consolidating to one platform
- Empower security teams to coordinate protection, detection, response and prevention with a single solution
- Ensure compliance and governance across the board

Power up your remote workforce with Microsoft Teams
